

## Product Change Notice

- **Notification #:** 2012090002
- **Date of Publication:** 20<sup>th</sup> of Sep., 2012
- **Affected Model:** EMX-QM67
- **Description of Change:**

To avoid the rare event of Power LED bright issue when system is forced to shut down, EMX-QM67 motherboard module is revised from A1 to A2 version.

Please note however that all other functions stay the same with the previous version.

- **Customer Impact of Change and Recommended Action**

The present change will not impact customers' current design. Avalue still maintains A1 for current projects and suggests customers to verify A2 for better quality. Please contact your sales window for A2 sample request, and please acknowledge the different ordering number when placing orders.

- **Product Affected / Avalue P/N**

Model	Description	Replaced P/N
EMX-QM67-A1R	MX Intel QM67 W/SocketG2/DDR3/4COM/12USB	EMX-QM67-A2R

We apologize for any inconvenience this may cause and appreciate your understanding.

Thank you for your confidence in us in the past and look forward to serving you better in the future.

Sincerely yours,

Jason Liu

Manager

Embedded Computing Product Division.
