

Product Change Notice

EBM-BYT & xx09 Series Panel PC Change

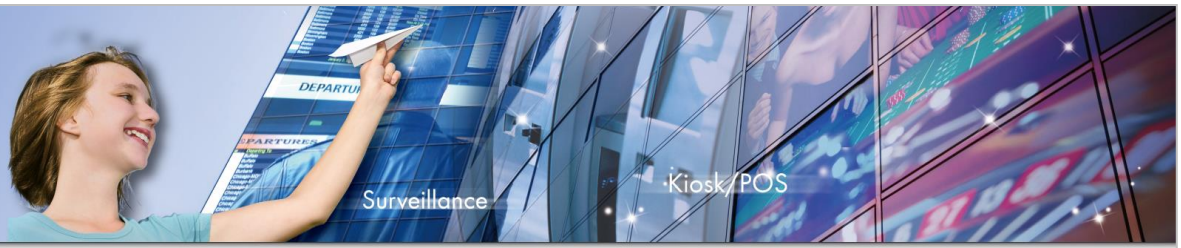

- **Notification #: 2015080002**
- **Date of Publication: 31 of August, 2015**
- **Affected Model: Listed Below**
- **Change Description**

Due to the long lead time for PLX PCIe switch with increased cost, Avalue has revised the single board with the replacement of Pericom's to shorten the delivery for one and half months and to remain the cost. The version has been changed into next version when the switch IC is running out of stock and all functions stay the same with the previous version.

- **Customer Impact of Change and Recommended Action**

The change of those boards will not impact customers' current design. Just please be aware that the ordering number will need to be changed when they place the order.
