

Product Change Notice

PPC-15XX Series Change

- **Notification #: 2015040002**
- **Date of Publication: 20th of April, 2015**
- **Affected Model: Listed Below**
- **Change Description**

In an effort to maximize the life of this product and continue with market trends; we will be upgrading the LCD panel of the PPC-15xx series from a CCFL to an LED backlight solution. The panel change will improve the overall power consumption of the unit and will still provide the same XGA (1024x768) resolution. The LED panel luminance, however, will be reduced from 300nits to 250nits. Please note that all other functions of the product stay the same with previous versions.

- **Customer Impact of Change and Recommended Action**

Please review this information carefully and note that products listed below will be affected.
